Enzzo, Inc. (“Enzzo,” “we,” “our,” and/or “us”) values the privacy of individuals who use our applications or services that link to this Privacy Policy, including the Enzzo website available at <http://www.enzzo.ai> (and its applicable subdomains) (collectively, our “Services”). This privacy policy (the “Privacy Policy”) explains how we collect, use, and disclose personal information from users of our Services. Use of the Services is subject to our Terms of Service ([here](#)) (“**Terms of Service**”), and this Privacy Policy is incorporated into and forms a part of the Terms, together with all other terms and policies linked or otherwise referenced within the Terms of Service or our Privacy Policy. By using our Services, or by clicking a button indicating your acceptance of the Terms of Service and this Policy, you agree to the collection, use, and disclosure of your personal information as described in this Privacy Policy. Capitalized terms not otherwise defined in this Privacy Policy will have the definitions provided in our Terms of Service.

Definition Of Personal Information

Information that we collect about you through the Services will fall into two categories:

- (1) “**personal information**”, which means information that can be used to identify you under applicable data privacy laws. The term “personal information” can include information such as your name and e-mail address, but can also include indirect identifiers such as your IP address or device identifier.
- (2) “**non-personal information**”, which means data that is collected in relation to your use of the Services, but which does not identify you and is not directly linked to your personal information. Such non-personal information is not subject to the terms of this Privacy Policy.

Personal and non-personal information are both referenced throughout this Privacy Policy as “information about you”.

Your Responsibilities

You are responsible for verifying the accuracy of the personal information you submit to the Services and ensuring that any personal information that you provide is kept up to date for the purposes for which you provide it. Inaccurate information may affect your ability to use the Services, the information you receive when using the Services, and our ability to contact you.

Information We Collect We may collect a variety of personal information from or about you or your devices from various sources, as described below. The categories below include information that is provided directly by you, or on your behalf, on a voluntary basis, such as when you communicate with our personnel over e-mail, and when you enter identifying input into our Services.

We may use the information provided by you to respond to your communication and/or as described in this Privacy Policy. We may also archive this information and/or use it for future communications with you where we are permitted by law to do so.

You are solely responsible for your Content. Information that constitutes 'sensitive information' under applicable data privacy laws may not be submitted to the Services for processing. You assume all risks associated with the use and sharing of your Content, including any reliance on its accuracy, completeness or usefulness by others, or any disclosure of your Content that makes you or any third party personally identifiable. Additionally, to the extent that you submit the personal information of any other persons to our Services, you represent and warrant that you have all rights and consents necessary to provide such information to us for processing in the United States (among other jurisdictions) and for the purposes described in this Privacy Policy.
